

## New Patient Registration

Thank you for choosing to register with us. In this pack you'll find information about the practice and how to register. Please take the time to complete the enclosed forms as fully as possible as this will enable us to provide you with the best possible care while we wait for your medical record to arrive from your previous practice. Further information on the practice is available on our website accessed at [www.moatfield.co.uk](http://www.moatfield.co.uk)

If you are on regular medication you will need to book an appointment with the doctor at least two weeks before your current supply runs out. Please bring your prescription or medication with you to this appointment. We also ask that you take a blood pressure reading from the machine in the waiting room and allow for this to be uploaded or hand the result in at the time of registration.

For your convenience we offer a service whereby you can make appointments with a doctor or order repeat prescriptions online. Please ask the receptionist for a username and password if you would like to use this facility once you are fully registered.

### Guidelines for Registering with Moatfield Surgery

Moatfield Surgery operates within its published boundary and does not accept patients who reside outside this defined area. Patients should note that if your address is outside of this area you will be asked to register with another surgery.

### Organ Donations

As the law around organ donation is changing in England from spring 2020, we want everybody to decide whether they want to be an organ donor and to share their decision with their family.

If you **do want to be an organ donor**, you can register to be a donor on the NHS Organ Donor Register.

If you **do not want to be an organ donor**, you can opt out by registering a 'refuse to donate' decision on the NHS Organ Donor Register.

If you have **already registered your decision** on the NHS Organ Donor Register and your decision remains the same, you should tell your family what you want.

If you have already registered, but **want to change your recorded decision**, you can do this simply at any time by completing the 'amend your details' form online.

**To register your decision visit [organdonation.nhs.uk](http://organdonation.nhs.uk)**

## Summary Care Record – your emergency care summary

The NHS in England is introducing the Summary Care Record, which will be used in emergency care.

The record will contain information about any medicines you are taking, allergies you may suffer from and any bad reactions to medicines you have had to ensure those caring for you have enough information to treat you safely.

Your Summary Care Record will be available to authorised healthcare staff providing your care anywhere in England, but they will ask your permission before they look at it. This means that if you were to have an accident or become ill, healthcare staff treating you will have immediate access to important information about your health.

Summary Care Records can help the staff involved in your care to make better and safer decisions about how to treat you.

## Summary Care Record with Additional Information

You can now also choose to have additional information included in your summary care record, which can enhance the care you receive. This information includes:

- Your illnesses and health problems
- Operations and vaccinations you have had in the past
- How you would like to be treated – such as where you would prefer to receive care
- What support you might need
- Who should be contacted for more information about you

Patient Registration Pack 06/2019

Moatfield Surgery, St Michael's Road, East Grinstead, West Sussex, RH19 3GW

As a patient you have a choice:

**Yes I would like a Summary Care Record**

You do not need to do anything and a Summary Care Record will be created for you. Patients are advised that in doing so they give consent under the General Data Protection Regulation 2018 to their personal data being shared on a national system accessible from healthcare settings.

**Yes I would like a Summary Care Record with Additional Information**

You do not need to do anything and a Summary Care Record with additional information will be created for you.

Patients are advised that in doing so they give consent under the General Data Protection Regulation 2018 to their personal data being shared on a national system accessible from healthcare settings.

**No I do not want a Summary Care Record**

Please ask the Receptionist for the opt-out form, complete it and hand it to a member of the GP practice team.

For more information, telephone the dedicated NHS Summary Care Record Information Line on 0300 123 3020

**You can choose not to have a Summary Care Record and have the right to change your mind at any time by informing your GP practice.**

If you are a parent or guardian with children under 16 you will have to make this choice for them unless you feel that they are old enough to understand and make their own choice.

Care-Data, also known as Type 2 Opt-out, prevents NHS Digital sharing confidential information for research and planning of services purposes. From October 2018, practices are no longer allowed to accept opt-outs relating to this. Patients wishing to opt-out of their data being used for this purpose have the following two options:

- 1) Visit the website at [nhs.uk/your-nhs-data-matters](https://nhs.uk/your-nhs-data-matters) where you can register a Type 2 opt-out provided you know your NHS number and have an up-to-date email address or mobile phone number in your GP record, or
- 2) Telephone the helpline on 0300 3035678.

**Thank you for taking the time to complete our Registration Form**
